

Regulation of Ski Resort

This document constitutes the Ski Corralco Resort Safety Standards Regulations.

By simply accessing the resort, the user adheres to these regulations and undertakes to respect them in full, whether skier, snowboarder or tourist in general.

- Users of the runs, lifts, recreational areas, or the resort in general, are obliged to respect the signs posted on the runs and lifts, to comply with the requirements of these regulations and by the legislation and regulations in force. The transgression of the mentioned regulations, authorizes the immediate withdrawal of the access ticket for runs and use of lifts, and if necessary, to be retained by Carabineros de Chile and be prosecuted.

- The skier and snowboarder declare to understand

and know the risks and dangers inherent to skiing and snowboarding. Consequently, the skier and snowboarder must assume responsibility for accidents and personal injuries that may occur and for those that cause to the resort and/or other users. Being eminently risky sports, the resort is not responsible for injuries and accidents that may be caused to people and/or property of users.

- It is forbidden to enter ski and snowboard runs that are not flattened, due to the inherent danger of using them without prior work by machinery and specialized personnel. The skier or snowboarder practicing "Backcountry", i.e. using areas whose use is not specially prepared for use by the resort, therefore buoyed and signposted, do so at their own risk and responsibility.

Resort areas, signalized as cliffs and/or avalanches areas are also considered as "Backcountry" and prohibits all persons from entering to them. It is strictly forbidden go through closures warning: Danger No Trespassing, Avalanche Danger, Cliff Danger, Closed do not Pass, Closed Run or similar. In the event it is necessary your search or rescue, the user who exposed him/herself to risk, will pay for the salvage costs.

- The user will be able to enter the runs only if he/she has a valid ticket issued by the resort, which must be exhibited each time it is required by an employee or representative of the station. Runs may only be accessed by carrying and using ski or snowboard equipment. Such equipment must be equipped with brakes or safety straps to prevent uncontrolled sliding. It is forbidden the entry and pedestrian traffic on the runs, the use of slides, sleds, boards, tubes, tires, bikes, inflatable boats, canoes, kayaks, or other sliding elements, kites, gliders, paragliders, motorized vehicles and any other equipment different from the one indicated.
- Users shall only use the lifts for which they are qualified to use and that will lead them to runs according to their ski level as per their difficulty degree depending on their own skill level. Otherwise you should ask the staff for help. Parents and guardians of minors should do the same.
- When entering a run or restarting their own descent, the user must give way to

already moving. It is forbidden any stop that obstructs the sliding of users on the run or is not visible uphill. It is only allowed to stop at the sides, as long as the user is always attentive to the movement of other skiers.

- Users must move on the runs in a careful and controlled way, away from snow fences and ski lift towers, making sure at all times to be in control of their movement. Users declares that notwithstanding the foregoing, inadvertent obstacles may always emerge, in virtue of which are obliged to be always attentive and vigilant and to use the runs with caution.
- The downhill user always has the right of way. If as a consequence of a collision with another user, one of them is injured, both must remain at the scene of the accident until safety personnel arrive, to provide the information they require, and exchange personal data between those affected.
- The user undertakes not to slide down the paths or lines near the lifts towers, snow fences, snowmaking machines, signs, posts, poles and ropes demarcating boundaries, stationary or mobile resort machinery, and any other similar element. Likewise, the user agrees not to cross runs where trainings, competitions or ski or snowboard lessons are held. It is also obligatory not to play on the ski lifts,

swinging on chairs, zigzagging on chairlifts, throwing objects and any other activity that endangers your physical integrity or that of other users.

- It is strictly forbidden to seize, damage or alter the location of safety elements, such as: nets, mats, ropes, beacons, posts, signs, flags, among others. These are placed to signal obstacles and

minimize accidents. Users declare to know that such elements will not fully protect them from harm and that their obligation to stay away from them and warn areas.

- The resort strongly recommends the use of helmets.
